

CLASS FEEDBACK

Revision 161207

I loved the Beginner II class. Andrew is unfailingly positive and supportive. I very much like the holistic focus, urging us to learn the mechanics and also focus on the environment and the pure enjoyment of playing ukulele with others. I ended the class having learned a lot, but also with the basis for continuing to learn. Andrew is a great teacher who makes learning and playing a whole lot of fun! ~ Judy

Hi Andrew. I've been really enjoying playing my ukulele since taking the Beginner 2 class. It's like a whole new world opened up since I'm no longer afraid of finger picking or even the triple strum. Playing is so much more fun now! I liked that you tailored your teaching to the vibe and learning level of the class in the moment rather than expecting everyone to progress in a specific way. Excellent, relaxed learning environment. ~Erika

I want to thank you for a great five week session of Beginner 2 lessons. Not only was it fun, but sure learned a lot. Looking forward to the next class. Am enjoying meeting all the newbies at various meetups. Love this new chapter in my life. ~Cheryl

I really liked your thorough teaching, Andrew, from purchasing a ukulele, to maintaining and playing the instrument. I appreciated the methodical approach to learning keys, chords, rhythm, strumming patterns, and efficient finger movement. It was also inspiring to know there will be other beginner ukulele players with whom I can practice in the coming weeks and months. ~Mary

Thank you. It was a wonderful and well laid out class. ~Dianne

I learned a lot from the class last week, I think because we were going s-l-o-w-l-y which was very helpful. It also seemed you were making sure we understood a concept before moving on. ~ Dee

Thanks for a great first class! I really enjoyed it - I'm a complete stringed instrument newbie and I really liked how thorough my first class was. The room set up, especially the way we can all view the slides, is really great, too. It all seems very professional but also relaxed/no pressure at the same time. That's really something to pull off - well done! ~Kristi

You did an outstanding job. It was a great learning environment with just the right mixture of content and low pressure to keep it fun. Once again - well done! ~Pat

Thanks so much for a very rewarding class. I learned a lot. You did a fabulous job of teaching, organizing and encouraging. ~Mary

Let me tell you how very much I enjoyed our Monday beginning ukulele course. You are a fantastic teacher and covered so much ground in a few short weeks. I appreciate the thoughtful planning that went into the curriculum. For someone who is very obviously accomplished and talented in music you can still identify with the perspective of the beginner and that's what makes a gifted teacher. ~ Marjorie

Thank you for the great classes. I learned so much and I had lots of fun. I am/was a complete beginner with no real knowledge, but I really didn't feel intimidated. You made an atmosphere of acceptance. I was there to learn and that was OK. ~Mary

You really did a fantastic job. You gave different perspectives and clearly put a lot of time and effort into organizing and structuring the class. It was perfect for people with a range of experience and different levels of interest. I feel like I have a lot of material to work with as I practice on my own. This was a great ukulele class, but more than that, just a great music class in general. ~Lis

Thank you for organizing and presenting such a fantastic introduction to uke playing. The curriculum and quality of instruction were terrific, and the teacher presented with great skill and enthusiasm. A totally outstanding accomplishment! The depth and richness of the material is something I will go back to again and again over the years. ~Betty

Thank you so much for the Beginner's Class. I really enjoyed it and learned so much. You did an awesome job teaching all of us. I really appreciated all the extra techniques you used. ~Linda

Thanks to everyone for such a great class! It was fun and certainly enlightening as well. ~Sue
